

MANISH KUMAR

Software Developer (React Native & Web) | Sri Ganganagar, Rajasthan | +91 7852860878

LinkedIn: <https://www.linkedin.com/in/manish-kumar-005919265/>

PROFESSIONAL SUMMARY

Dynamic Software Developer with specialized expertise in React Native, TypeScript, and Web Application Architecture. Proven track record of delivering functional mobile and web applications, including live projects like Health Buddy, Petvesta, and Chef App. Skilled in managing full project lifecycles, from complex Android configurations to integrating secure payment systems like Stripe.

TECHNICAL SKILLS

- Mobile Development: React Native, Android Studio, ADB, Splash Screen Configuration.
- Web Development: React.js, TypeScript, Material UI (MUI), Redux, Responsive Dashboard Design.
- Tools & Backend: Stripe API Integration, Git, Linux (Kali), Virtual Machine Management.
- Additional Expertise: Digital Content Management (VN App), Technical Troubleshooting.

PROFESSIONAL EXPERIENCE

Syncglob Private Limited

Software Developer | 2 Years

Health Buddy (Live Project)

- Contributed to the development of a live health-related application focused on wellness and medical tracking.
- Implemented user-centric features to ensure high performance and stability in a live environment.

Chef App (Live Project) | Mobile App Developer | (2 Months)

- Developed a food product application featuring product purchasing and seamless payment integration.
- Ensured cross-platform UI consistency and resolved critical performance bottlenecks.

Petvesta

- Worked on the development and feature implementation for the Petvesta platform.
- Collaborated on enhancing application functionality and UI components for an improved user experience.

FMO App (Financial/Trading Platform) | Software Developer | (6 Months)

- Architected core components and optimized performance for a financial tracking environment.
- Implemented real-time data updates and interactive user dashboards to enhance application stability.

Construction Web Portal | Frontend Developer | (2 Months)

- Built a comprehensive web portal for construction management using modern React patterns.
- Designed responsive project-tracking dashboards for resource allocation and managed manifest updates.

Car Dekho App | React Native Developer | (1 Month)

- Configured React Native splash screens and optimized initial application boot sequence.
- Developed UI components and handled local development environment configurations.

EDUCATION & CERTIFICATIONS

- Bachelor of Arts (B.A.) | Maharaja Ganga Singh University (MGSU) | 2023 (Result: 60%).
- Diploma in Web Development (6 Months) | IEC Computer Centre.

INTERESTS

- Cybersecurity: Hands-on experience with Kali Linux and network troubleshooting.
- Sports: Cricket (Active fast bowler).

- Creative: Video editing and social media brand management.
